

Acetabulum 360°

“Age-dependent surgery and the future of reconstruction”

October 23–24, 2025

Venue: CTO

October 23

Residents' Session

- **8:30** Participant registration – 30 min
- **9:00** Welcome and course introduction – 5 min
A. Ferreli, A. Massè, A. Aprato, K. Zoccola

Moderators: F. Liuzza, A. D'Amelio

- **9:05** Diagnosis and classification of an acetabular fracture (*M. Olivero*) – 15 min
- **9:20** Which surgical approach? (*Yi-Hsun Yu*) – 20 min
- **9:40** Discussion – 10 min
- **9:50** Corridors, imaging, planning around minimally invasive surgical techniques (*A. Battini*) – 10 min

10:00 – J&J Workshop – 50 min

Minimally invasive surgery in acetabular fractures

Stations:

1. A. Battini
2. M. Olivero
3. S. Devivo
4. A. D'Amelio
5. M. Nardi

Clinical cases and reduction techniques

- **10:50** Posterior wall (*C. De Franco*) – 15 min
 - **11:05** Anterior column (*A. Moghnie*) – 15 min
 - **11:20** Posterior column (*G. Orabona*) – 15 min
 - **11:35** Both-column (*Fratus Abramo*) – 15 min
 - **11:50** Emergencies in acetabular fractures (*Maurizio Alberto*) – 15 min
 - **12:05** Course conclusions and discussion – 25 min
-

Day 1 – Main Session

13:30 Participant registration – 30 min

14:00 Welcome greetings and course introduction

A. Ferreli, Prof. A. Massè, Prof. A. Aprato, Dr. K. Zoccola, (Dr. C. Picco, Dr. L. Tranchida, Authorities)

Session 1: The acetabulum at the extremes

Moderators: A. Massè – F. Santolini

- **14:10** When should I operate on an acetabular fracture: fracture-dependent criteria (*P. Jouffray*) – 15 min
- **14:25** Delayed fractures: my experience (*M. Oransky*) – 20 min
- **14:45** Fragility acetabular fractures (*P. Jouffray*) – 15 min
- **15:00** Pediatric acetabular fractures (*Mahmoud Fahmy*) – 20 min
- **15:20** Discussion – 20 min
- **15:40** Case 1 (*Fratius Abramo*) – 15 min
- **15:55** Case 2 (*A. Audisio*) – 15 min

16:10 Coffee break – 20 min

Session 2: Acetabular surgery at 360°

Moderators: A. Massè – M. Commesatti

- **16:30** How I reduce the posterior column fracture in the supine position (*U. Mezzadri*) – 10 min
 - **16:40** How I reduce an anterior column fracture from a posterior approach (*L. Rollero*) – 10 min
 - **16:50** How I reduce a combined pelvis–acetabulum fracture (*A. Casiraghi*) – 10 min
 - **17:00** Surgical hip dislocation: Tips & Tricks (*M. Tannast*) – 15 min
 - **17:15** The role of percutaneous fixation (*C. Mauffrey*) – 20 min
 - **17:35** The experience of conservative surgery in acetabular trauma (*M. Tannast*) – 15 min
 - **17:50** Discussion – 20 min
-

Session 3: Orthopedic debate – Blind cases

Moderators: A. Massè – A. Ferreli

- **18:10** Case 1 (*R. Pascarella vs. U. Mezzadri*) – 15 min
- **18:25** Discussion – 15 min
- **18:40** Case 2 (*M. Arduini vs. A. Casiraghi*) – 15 min
- **18:55** Discussion – 15 min

Keynote Lecture

- **19:10** The history of acetabular fractures (*G. Zinghi*) – 20 min

19:30 Closing remarks – end of Day 1

20:30 Social dinner – “Circolo dei lettori”

Symposium “Silony”

Spinopelvic fixation

October 24 – Day 2

Session 4: The room of the young surgeons

Moderators: M. Stella – P. De Biase

- **8:30** Growth curves: how to approach acetabular surgery? (*M. Nardi*) – 10 min
 - **8:40** Planning the acetabular fractures: the role of pre- and postoperative imaging (*E. Santolini*) – 10 min
 - **8:50** Management of intra-operative complications (*C. Galante*) – 10 min
 - **9:00** Analysis of a success (*A. Moretti*) – 10 min
 - **9:10** Analysis of a failure (*F. Addevico*) – 10 min
 - **9:20** Discussion – 20 min
-

Session 5: Junior vs Senior

Moderators: M. Berlusconi – A. Panella

- **9:40** Case 1 – 15 min
What the Young surgeon would do: M. Alberto – A. Moghnie
The Expert advice: M. Stella
- **9:55** Discussion – 5 min
- **10:00** Case 2 – 15 min
What the Young surgeon would do: A. Pau – G. Orabona
The Expert advice: M. Oransky
- **10:15** Discussion – 5 min

10:20 Coffee break – 20 min

Session 6: Surgical approaches – what are the limits?

Moderators: M. Berlusconi – U. Mezzadri

- **10:40** Kocher–Langenbeck approach experience (*Yi-Hsun Yu*) – 10 min
- **10:50** Ilioinguinal approach experience (*R. Pascarella*) – 10 min
- **11:00** Endopelvic approach experience (*R. Erasmo*) – 10 min
- **11:10** Pararectus approach experience (*Yi-Hsun Yu*) – 20 min
- **11:30** Discussion – 20 min

11:50 Medics Symposium – 40 min

12:30 Lunch break – 60 min

Session 7: The future of acetabular surgery

Moderators: F. Santolini – A. Ferreli

- **13:30** The role of arthroscopy (*A. Aprato, M. Giachino*) – 10 min
- **13:40** The Endoscopic surgery (*Yi-Hsun Yu*) – 20 min
- **14:00** Management of associated lesions in acetabular surgery (*S. Cattaneo*) – 10 min
- **14:10** Biomaterials and scaffolds in acetabular surgery (*M. Commesatti*) – 10 min
- **14:20** What's new and what's next? (*M. Cavanna*) – 10 min
- **14:30** Discussion – 20 min

14:50 Trabecular titanium in acetabular fracture prosthetics – 40 min

15:30 AIP News – 10 min

Session 8: Arthroplasties in acetabular fractures

Moderators: A. Massè – K. Zoccola – A. Aprato

- **15:40** When THA is not enough: fixation plus prosthesis (*F. Liuzza*) – 10 min
- **15:50** THA on fixation failures (*R. Papalia, B. Zampogna*) – 10 min
- **16:00** When internal fixation gets infected: managing the prosthetic implant (*V. Salini*) – 10 min
- **16:10** When the elective implant gets complicated: intraoperative periprosthetic fractures (*M. Arduini*) – 10 min
- **16:20** Acetabular reconstructive surgery in tumor lesions (*R. Piana*) – 10 min
- **16:30** Discussion – 20 min

16:50 Closing and end of congress
